

Trivia & Written Test

The Written Test and the Trivia Test are two separate competitions.

Students enter the **Written Test** competition according to their level, Level 1 through Level 4. The test consists of multiple-choice questions which the students answer on a Scantron sheet. Test supervisors have all the materials the students will need, including pencils and Scantron sheets. The test consists mostly of reading comprehension and some grammar questions. There are no listening or speaking components.

The **Trivia Test** is open to all students regardless of level because all questions are **in English**. Like the Written Test, the Trivia Test consists of multiple-choice questions which the students answer on a Scantron sheet. Again, test supervisors have all necessary materials. The questions on the Trivia Test come from all cultural aspects of the German-speaking world, such as history, geography, sports, arts, etc.

Both tests are untimed, but the time it took each student to complete the test will be noted on the student's answer sheet in case a tie-breaker is necessary.
