

## **City Tour Video:**

Participants choose a city in Germany, Austria, Switzerland, Liechtenstein, or Luxemburg and create a digital city tour. The video needs to be narrated (Level 1 in English, Levels 2 and higher auf Deutsch!) and include important sights and fun facts about the city the participant chose. Participants can use only pictures, only videos, or both. If there is background music, it should not interfere with the student's narration. Participants can use basic programs like PowerPoint or get fancy and use a virtual reality app. The video must be less than 5 minutes long.
